

Adventure Cycling Association

The TransAmerica Trail contains 12 sections, one printed on each paper map. Each of the 12 waypoint files covers one section, indicated by their file names TA01 thorough TA12. The User Guide at <http://www.adventurecycling.org/routes/gps.cfm> has more information about using these files.

The names of all waypoints on this route begin with "J". Their second character indicates routing as main, spur or alternate as listed below:

- 0 The main route eastbound
- 1 Salem spur, Section 1
- 2 Eugene spur, Sections 1 & 2
- 3 Florence-Eugene alternate, Section 1*
- 4 Santiam alternate, Section 2
- 5 Darby MT alternate, Section 4
- 6 Gibbons Pass alternate, Section 4
- 7 Teton spur, Section 5
- 8 Coyville KS (bridges out), Section 8
- 9 Mississippi Levee alternate, Section 9
- A Mammoth Cave loop, Section 10
- B Netarts Highway Alternate, Section 1

The third character, 1-9 & A-C, refers to the map section number. The final three characters sequence the waypoints so that, when sorted alphabetically, they follow the order of the maps on each printed sheet.

Through out the year we receive updates on routing, services, camping and contact information. Until we can reprint the map with the new information, we verify the suggested changes and publish addenda. Check them before leaving on your trip. They are available online at: <http://www.adventurecycling.org/routes/addenda.cfm>

This document will be re-published with a new version number when any of the waypoint files is revised. Current release status of these waypoint files:

TA01v007 from map BC-1511 2010; released 08/10
TA02v007 from map BC-1512 2010; released 01/11
TA03v007 from map BC-1513 2010; released 01/11
TA04v007 from map BC-1521 2012; released 09/12
TA05v007 from map BC-1522 2010; released 12/10
TA06v006 from map BC-1523-09; released 06/10
TA07v008 from map BC-1531 2012; released 05/12
TA08v008 from map BC-1532 2012; released 09/12
TA09v008 from map BC-1533 2011; released 02/12
TA10v007 from map BC-1541 2011; released 02/12
TA11v007 from map BC-1542 2011; released 01/12
TA12v008 from map BC-1543 2012; released 09/12

* The sample routes included for this alternate vary slightly from other maps due to the increased panel length. Though there are three GPS Routes for this panel, there is only one route.
